

TEACHER WORKSHOPS

WRC WEATHERWISE – This workshop is a six hour workshop which includes weather activities and experiments that make learning about the weather fun. The workshop is delivered by meteorologists.

Tour the Weather Museum. Get all of your weather questions answered by a meteorologist. You receive CPE credits as well as a certificate of completion.

Upon completing the training, participants receive the Project Meteorology Curriculum and Activity Guide as well as other weather resource education materials, and leave prepared and inspired to teach about weather in their classroom or informal educational setting. Limited to 15 teachers per workshop

Download the registration form from <http://www.wxresearch.org/teachers/>
Deposit is non-refundable.

PROJECT WET

Teaching educators to teach students about water

Trained facilitators deliver Project WET materials through professional development workshops. At these workshops, participants engage in cooperative, hands-on learning, experiencing the activities as they are presented by skilled facilitators.

Upon completing the training, participants receive the Project WET Curriculum and Activity Guide as well as other water resource education materials, and leave prepared and inspired to teach about water in their classroom or informal educational setting.
